## Test Flight of Homing Pigeons

Released at Lethbridge 6 a.m., Arrive  
at Coleman Loft  
at 8:15 a.m.

The first flight of homing pigeons recorded in the Crows Nest Pass took place on Sunday, when three birds owned by John Anderson, and three by Charles Makin, which were taken to Lethbridge on Friday by train, were released on Sunday morning at 6 o'clock. The three owned by Mr. Anderson reached their loft at the fire hall at 8:15, and Mr. Makin's arrived fifteen minutes later.

The birds were from four to six months old, and this was their first flight of any length, preliminary flights having been made from towns a short distance east.

Mr. Anderson's birds are from stock which he brought from Scotland last year, he having been in charge of lots for the Royal Air Force at various places in the United Kingdom. The flight excited keen interest among pigeon fanciers. The distance by rail is about 95 miles, so that allowing for the circling of the birds in locating their route home, it is estimated that they must have flown nearly 100 miles in 2 hours and 15 minutes.

It is planned to try them on a 300-mile flight in conjunction with a flight of pigeons owned by Lethbridge fanciers.

## Pay-Day Specials

### Grocery Department Canned Fruits

Pitted Cherries, 2's, per tin	.25
Sliced Peaches, 2's, per tin	.25

## Notice Re Hospital Service

Tradespeople and people engaged outside of the mining industry may receive the benefit of hospital rates of \$1.50 per month or \$4.50 per quarter, payable in advance. This entitles them to hospital accommodation in case of sickness. Medical attendance is not included in this rate. Apply to Percy H. Locke, Secretary, Box 4, Coleman.

### Britain's Best for 1929

We see the confirmed track and field team of athletes from Oxford and Cambridge gallantly assembled just before they ended a wonderful voyage aboard the Cunard liner Aquania. They are bound for Hamilton, Ont., where begins a strenuous itinerary which includes competition in the United States with Yale, Harvard, Cornell and Princeton, and another voyage back to England for "clean linen" before hastening off to South Africa to compete there.

### Crows Nest is Subject of Artist's Brush

Its Majestic Grandeur Creates Inspiration to Paint Fine Picture of Famous Landmark.

Mr. Fred Pye left on Tuesday for Banff and Lake Louise, after spending a week here, and will remain there till September, following which he will hold an exhibition in Edmonton, at which will be shown several of his paintings of scenes produced during his six years' residence in France and Italy, where he studied art, besides pictures of the Canadian Rockies. Whilst here he painted a very fine picture of Crows Nest Mountain, taken from the lake, which appeals to the imagination of those who know the mountains, and especially this famous landmark which arrests the eye of the tourist as he passes from Alberta into British Columbia, or entering the province from the Pacific coast. Another local scene which made a fine subject was the valley looking westward from the highway, a short distance west of town.

During his residence in Paris, one of his paintings was purchased by the Luxembourg and given a permanent place in their art collection, which is considered among the finest in the world.

This is Mr. Pye's first visit to the Crows Nest Pass district, though he has visited the Rockies before, and lived for two years on the Pacific coast before going to Europe. At present his home is in New York City, to which place he will return in October.

### Local News

Luke Lindoe and Bob Pattinson are spending the summer holidays at Prince George, B.C.

Dr. and Mrs. Stewart of Blairmore are away on vacation at present. Dr. McConkey of Edmonton being in charge during their absence.

Coleman band were unable to go to Lethbridge Exhibition owing to there not being sufficient members to give proper instrumentation.

Mrs. Clifford and daughters Hilda and Elinor, and Miss Edith Hayson and Marie Naylor motored to Waterton Lakes Park last week and enjoyed a brief stay there.

Mr. and Mrs. Patterson and daughter Grace, and Makolm and Frank Fraser, returned on Sunday from a two week's visit at the home of their daughter, Mrs. S. L. Wilson, at Kellogg, Idaho.

Mr. and Mrs. Steve Machin went to Vulcan on Tuesday, and they will attend the Lethbridge Exhibition. Mr. Machin having been engaged to play with Vulcan band in the competition there.

Mr. and Mrs. Roland LaSlett and their nieces, who are visiting with them from Calgary, motored to Waterton Lakes on Sunday, going via Cardston, and they found the roads in fine condition for travelling to that popular mountain resort.

### CITIZENS BAND EXPRESSES THANKS

Members of Coleman Citizens Band wish to thank the following for their donations and other forms of assistance in making the trip to Calgary to take part in the band competition: Coleman town council, officials and employees of International and McGillivray Coal Companies, tradesmen for their donations, also Coleman Board of Trade for the splendid banner which helped to advertise the town.

It is only by combined support that this trip is made possible and the band fully appreciate the fine spirit shown.

Purchase your tickets for the electric Orthophonic to be given as the prize on Saturday night at the carnival, and for the handsome 3-piece Chesterfield suite on Monday night. The cost is 25c for a ticket on each. Many novelties will be on display at the various booths, and the rink is now in course of preparation for this great annual event. Jitney dances each night with the celebrated Knights of Rhythm orchestra will be a feature of the program.

### Keen Competition in Rod & Gun Club

Two Tied for Largest Speckled Trout —McCulloch Beaten by Half

The first competition this season was productive of good sport among the anglers, and Sunday was a very good day for the trip to South Fork bridge. Sylvan de Kleyn and Archie McCulloch were the leaders in the heaviest basket class, de Kleyn having 5 lbs. 13 oz. and McCulloch half an ounce less.

De Kleyn was also successful in winning the prize for the biggest bull trout of 1 lb. 10 oz. and Henry Clegg and Tony Cornell tied in the speckled trout class each with a fish of 1 lb. 5 oz. They tossed a coin to decide who should take the prize, Cornell winning. About 30 took part in the day's outing.

Bob Penman was among the Stamped visitors from Coleman and met a number of old friends there.

### Hike For Health!

Automobile laziness is stated to be the cause of one hundred times as many deaths annually as are caused by automobile accidents. The automobile has made it possible for us to get through life with hardly any exercise unless we are fortunate enough to be employed in some mode of living or of manual labour. This has completely changed our mode of living but not our diet; we still eat the same quantities of rich heavy food customary many years ago.

Easy and quick transportation at any time by automobile should be one of our chief blessings; to many it appears to be far from that. The medical profession has been aware for some time of the great increase of disease among the well-to-do. The situation has become so marked that our great insurance companies are becoming seriously alarmed. Investigation has shown that fully 90 per cent. of the well-to-do members of our population have either undergone an operation or are suffering from some kind of disease, and the number of sudden deaths of apparently healthy people is increasing alarmingly.

The blame for all this is placed unhesitatingly upon the thoughtless use of the automobile. To preserve his health man must exercise. The languid game of golf after sitting all day either in his office or automobile has proved but a poor substitute. Even less effective is the modern method of enjoying our sports by sitting on a grand stand and watching others play basketball, or horses run a race. Many try to replace exercise by fast foods and patented medicines, thereby enrich many charlatans but benefit themselves very little. We are changing our hospitals and more operating rooms; we would be wiser to clamber for more parks and recreational areas where we may pleasantly indulge in natural exercise.

It has become the fashion among the motoring public to drive through our parks and along our highways as fast as the law allows, and to segate for extended roads hinter and yon, so that they may drive further from the beaten path. The motoring public of tomorrow will undoubtedly have different ideals; they will appreciate motor roads located through attractive districts with numerous parking places from which they may explore on foot the beauties not to be seen from the road. They will be anxious to learn what is behind the hill. Now, the average motorist has but little to tell of his trip except his daily mileage record; then, the subject of his motor trips will be treated by his friends with the discretion now used towards a postage stamp collector. When once started on a description of the trip, photos, mineral specimens, and curios of many kinds will be produced, and the story of the trip will be a long one full of plans for the exploration of other districts in the future.

There is no more delightful nor healthy way to spend a week-end than on a new trail. Popular books, plays and amusements are usually "different." National parks provide something different every few minutes; the scenery, both in relation to light and shade and relative position, is always changing; there is always the lure of the unexpected just around the corner. Many and varied are the objects to interest the observant which will never be noticed by the long-distance hiker who, like the present day motorist, takes his pleasure from his mileage records. Some of the world's richest mines have been passed unnoticed by hundreds before the man with the seeing eye came along to see, investigate, and become the envy of his less observant fellows.

An elderly clergyman was found wandering alone in the mountains. He said that during a serious illness he had studied that in his lifetime study of the word to come he had done very little in the world in which he lived. His enjoyment of his surroundings was indeed complete; he realized too late how much he had missed.

Various foreign governments carefully foster physical culture either in the form of citizens' military training camps, great athletic meets, or Olympic games, in which thousands of athletes annually take part.

Walking has become very popular in many European countries. In Germany they were quick to grasp the significance of this, and shelters have been established at suitable points of interest throughout that country which were patronized by over twenty million hikers last year. Not only university students to whom a hike was a college week-end, weeks of college, but hosts of wage earners from the large cities made up their own parties of from half a dozen to a hundred or more, and had a most enjoyable holiday at slight expense.

Obviously the scheme is of national benefit. National health is improved and patriotism fostered by broadening the vision and familiarizing the people with their own country.

The most robust employee usually commands the best wages, but during slack times the weak ones are often discharged, to possibly become a charge on the community. National prosperity is based on national health. Strong robust manhood and womanhood is the foundation on which a strong nation must rest. Canada has much beautiful scenery, and it is not restricted to any one section of the Dominion. Why not familiarize ourselves with our own country by walking through it? Why not set aside, each year, a hiking week, preferably in the late summer or early fall months, and go on a hike of thanksgiving for our present health and gather a harvest of health for the future?

### Canada's Fire Losses

Loss From Fire in 1928 Amounted

To Huge Sum Of \$102,697,849

Canada's fire loss in 1928 was \$102,697,849, according to the survey read at a session of the Dominion Fire Prevention Association, and the joint convention of the Associated Fire Marshals, by the Dominion Fire Commissioner, E. Grove Smith.

Insurance premiums in excess or losses paid amounted to \$29,367,337. Ontario sustained losses through

fire amounting to \$12,169,897 with a per capita loss of \$3.80. Alberta was highest with a per capita loss of \$5.74, and Saskatchewan lowest with a per capita loss of \$3.37.

President Bruce, Edmon-ton, delivered an address.

#### Makes a Difference

Sinkins, who was house-hunting, and had just arrived at a station, said to a boy standing near, "My boy, I am looking for Mr. Johnson's new block of semi-detached houses. How far are they from here?" "About twenty minutes' walk," said the boy. "Twenty minutes?" exclaimed Sinkins. "Nonsense!" The advertisement said five." "Well," replied the boy, "you can believe me if the advertisement, whichever you like. But I ain't tryin' to sell a house!"

Mr. Slim: There goes Mr. and Mrs. Dawson. She's twenty years old and he's forty.

Mr. Stout: You don't say? Twice as old as she. Just think, when she's fifty he'll be 100.

### 10,000 Bottles a Day

### Tribute To General Booth

Aged Commander Died Penniless Although He Controlled Millions  
Appreciation of General Bramwell Booth, the eight-year-old life-time leader of the Salvation Army, has been even higher at his death, when came opportunity to review his works; it will be higher than ever as the result of an examination of his "estate."

The fact of the matter is there is no estate. It is revealed that the aged General died absolutely penniless. He owned not one cent, and he left no property other than his uniform and a few books. He controlled millions in money and property but never drew a cent from the Army. He subsisted on a trust fund of \$2,500 a year, did not own the house in which he lived, and looked to relatives to pay his children's fees at educational institutions.

There are various elements which enter into greatness. One is popularity; others are service to one's fellows, unselfishness, sacrifice. General Booth had all these. To die penniless is sometimes accounted an offence or scorn. In the case of Bramwell Booth it is yet another tribute to the man and his works.—Regina Daily Post.

### WEAK, WATERY BLOOD

Is the Cause Of Much Distress and General Weakness

Anæmia which really means weak, watery blood is responsible for the pale faces, thin cheeks, dull eyes and drooping figures one sees in the streets. It is a disease of headaches, weak backs, aching limbs and uncertain health. Every weak anæmic person should wish the right to be well by regaining their health with the natural red blood so promptly supplied by the use of Dr. Williams' Pink Pills. This new blood reaches every organ and nerve in the body and quickly banishes all those troubles because their origin is in watery blood. Among those who have found new health and strength through the use of Dr. Williams' Pink Pills is Mrs. Hugh Evans, Amherst, N.S., who says: "When I began taking Dr. Williams' Pink Pills I was so weak and run-down that I could scarcely go about the house and found it almost impossible to move. I had often read about Dr. Williams' Pink Pills and decided to try them. Soon I found they were helping me, and under their continued use I regained good health. The pink pills are a tonic for the system of St. Vitus Disease and I have no reason to praise them."

You can get the pills from your druggist, or by mail at 50 cents a box from Dr. Williams' Medicine Co., Brooklyn, Ont.

### Fire Protection For

#### Japan's New Bank

Architects Plan To Surround Building With Water

Something new is being planned in the way of fire protection in Japan. The Bank of Japan plans a new building approximating three times the size of the present structure at a cost of 25,000,000 yen. The building will soon be completed in seven years. The present building will remain as an annex. The new building will be five stories high. Plans of the architect call for the diverting of water from one of Tokio's canals to surround and protect the bank vaults in case of fire. The architect declares it will be possible to turn his water on at a moment's notice.

### LAXATIVE FOR BABY THAT "STAYS DOWN"

Baby's tiny system rebels against cold and strong purgatives, but here's a medicine that will suit. And it does the work quickly and so gently that Baby doesn't feel it. Fletcher's Castoria is so soothing to the infant's system that it is easily a wonderfully effective laxative, easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

### Canadian National Railways Earnings

Increases Shown For First Five Months Of Present Year

Gross and net earnings of the Canadian National Railways for the five month period from January 1st to May 31st, show increases in comparison with the similar five month period of 1928, according to the official financial statement issued from headquarters.

During the first five months of 1929, the gross earnings amounted to \$104,948,280 as compared with \$101,180,750 for the first five months of 1928, an increase during the current year of \$3,767,531 or 3.72 per cent. For the first five months of 1929, the working expenses totalled \$86,500,273.37 as against \$84,117,042.07 for the first five months of 1928, an increase of \$2,383,230.30 or 2.83 per cent.

This furnishes net earnings for 1929, of \$18,948,017.63 in comparison with net earnings to the first five months of 1928, of \$17,063,169.83, an increase for the five months of this year of \$1,884,300.70 or 8.11 per cent.

As a result the operating ratio for the first five months of 1929 has been reduced to \$82.42 per cent. from \$83.14 per cent.

For the month of May last, the gross earnings of the Canadian National Railways amounted to \$25,527,198, as against \$21,751,337 for the corresponding period of 1928, an increase of \$3,775,861.

Working expenses for the month of May last totalled \$18,973,149.65, as against \$18,095,900.28 for May 1928, an increase of \$1,277,249.57. This increase was due particularly to the fact that the maintenance programme began earlier this year owing to the monsoon season.

Net earnings for May last, amounted to \$3,154,069.15, while in May, 1928, net earnings totalled \$3,653,462.72. The operating ratio for May was 86.00 per cent. as against 83.19 per cent. in May, 1928.

Nothing As Good For Asthma. Asthma remedies come and go, but the secret of a cure is in the drugstore. Dr. J. D. Kellogg's Asthma Remedy grows greater and greater. No further evidence could be asked of its remarkable merits. It relieves the mind of the many unnecessary qualms which the sufferer from asthma learns to know. Do not suffer another attack, but get this splendid remedy today.

The Right Honorable Lady

New Phrase Is Used For The First Time In British House Of Commons

"The Right Honorable Lady" has been heard in the British House of Commons for the first time, replacing temporarily the stereotyped masculine designation of a member of the privy council. "The Right Honorable Gentleman."

The reference was made recently when Sir Aspinwall Pownall, Conservative, questioned Miss Margaret Bondfield, the new minister of Labor and first woman cabinet member and privy counsellor, on a point of her administration.

The Family Physician.—The good doctor has a birthright fee. But he is not always popular to get doctor just when you want him. In such cases, common sense suggests the use of reliable home remedies, every woman knows which is which, a wonderfully effective laxative, easing inflammatory pains and healing cuts, scratches, bruises and sprains. The presence of this remedy in the family medicine chest saves many a fee.

#### Expensive Airplane

Probably the most expensive airplane ever constructed was recently built in England. It has a ceiling decorated, that cost \$5,000. Accommodations are for eight passengers and include a lounge and bridge tables, electric kitchen and electric refrigerator. The total cost of the plane was \$150,000.

#### Ten Thousand Words On Postcard

A German artist has written on an ordinary postcard a 10,000-word story of Colonel Lindbergh's flight across the Atlantic. It took three months to complete and was written with a hard pencil and without the use of a magnifying-glass.

No child should be allowed to suffer for an hour from worms when prompt relief can be got in a simple but strong remedy—Mother Graves Worm Exterminator.

Golf Professor—Now, one important thing for me to tell you is always to keep your eye on your ball.

Suspicious Notice—Oh! so that's the sort of club I've joined, is it?

Distance doesn't lend enchantment to one's views of the almighty dollar.

### Made Fortune By Accident

Proprietor Of Roundabout Had Unusual Luck In Australia

Fortunes are not always the result of hard work and good judgement, but are sometimes made by accident, says Jack McLaren in writing upon the subject in the London Daily Chronicle. One such case occurred when a roundabout was landed at Thursday Island—a cosmopolitan pearl centre off the north coast of Australia—for transhipment to Japan. Finding there were a few days to wait, the proprietor decided to erect his apparatus and employ the interval by making it earn a little. Instead of a few days he stayed three years.

The island was completely lacking in entertainments, and the colored population rushed the roundabout as they would have rushed nothing else, riding it twenty hours a day, men, women and children, often three to a horse. Fare-collectors had to be put in chains.

So many of the natives necessary to the existence of the working that before the end of the second year the whole affair had been twice completely rebuilt. Those three years gave the owner far more money than he had thought to earn in the whole of his life.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause, and imparting a healthy tone to the system most beneficial to development.

### Stay In Canada

Many People Who Contemplated Going To U.S. Have Changed Their Minds

At least 50 per cent. of the people who wanted to go to the United States two or three years ago and put themselves on the waiting list at the United States consulate for that purpose, now have changed their minds and are staying here, said Emil Bauer, United States consul at Toronto.

Discussing immigration in an interview, Mr. Bauer said that these people, while waiting their turns on the quota list have found jobs in Canada. They now have no desire to migrate. Business conditions here have improved to such an extent that electricity is the cause of life. So it seems we are nothing but a lot of current events.

Keep Minard's Liniment in the Medicine Chest.

### UNIVERSITY OF MANITOBA WINNIPEG

Offers, among others, the following Courses:

Through its FACULTY OF ARTS AND SCIENCES courses leading to the degrees of B.A. and M.A., and B.Sc., Through its FACULTY OF ENGINEERING AND ARCHITECTURE leading to the degrees of B.E.C.E., B.Sc.(E.E.), M.Sc., and

Through its FACULTY OF MEDICAL COURSES leading to the degrees of M.D. and C.M.; Through its FACULTY OF AGRICULTURE leading to the degrees of F.B.A. and B.Sc.; Through its LAW SCHOOL, an affiliated institution, a course of three years.

For terms of admission, details of courses and other information apply to W. J. SPENCE, Registrar, University of Manitoba, Winnipeg.

### Presence Of Mind

Telephone Operator Sounds Fire Siren When Bandit Invades Office

Although bound and gagged by a bandit who had invaded the office of the United Telephone Company at Vernal, Utah, recently, Mrs. Hazel Hackler, the night operator, succeeded in frustrating the holdup. It was about 3:30 o'clock on a Sunday morning when the bandit appeared, and the operator reached for the switchblade to call the night marshal; he grabbed her by the throat and choked her and then bound and gagged her. Turning to the desk nearby, he picked up the cash box, but the operator succeeded in reaching with her foot the switch which sounds the fire siren, with the result that the bandit became frightened and made his escape. — Telephone Press Service.

Your Home Medicine Chest. Among the standard household remedies that should always be in your medicine chest, there is none more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known to many thousands throughout the land. Always use Dr. Thomas' Electric Oil for relieving rheumatic and sciatic pains, treating sore throats and chests, coughing burns, scalds, cuts, bruises and sprains.

Experiments in Cleveland show that electricity is the cause of life. So it seems we are nothing but a lot of current events.

## WOULD RESUME TRADE RELATIONS WITH SOVIETS

London, Eng.—The British Government this week will forward a communication to the Russian government, which it is hoped will enable a Russian representative to visit London before the end of July, to talk with Rt. Hon. Arthur Henderson, foreign secretary, on resumption of normal relations between the two countries. It is hoped that during the conversation a satisfactory understanding will be reached, enabling normal diplomatic machinery to be restored.

Premier Ramsay MacDonald, in the House of Commons recently expressed the opinion that a suitable opportunity would arise in the House soon for debate on the question of resumption of relations with the Soviet government, but added he could give no understanding as to such a date.

The prime minister also said he would consider the question of publishing the correspondence between the British and Dominion governments on the matter, but the stage had not yet been reached where publication was desirable. The dominions would have to be further consulted, he said.

Asked whether Britain would renew relations with Russia even if the dominions were not in agreement, the prime minister said he was unable to make any statement on that point at present.

Sir Austen Chamberlain, former foreign secretary, asked if the House would be entitled to consider whether the Soviet replies were satisfactory before relations were resumed.

"No," Premier MacDonald stated. "We will follow the procedure the honorable gentleman himself always followed."

Hon. Winston Churchill, former chancellor of the exchequer, then suggested that unless the question was debated before the end of the session the matter might be decided and settled before the House had recessed again after the short summer vacation.

"As far as the government can settle it, yes," Mr. MacDonald replied, "but the House will still be able to discuss the matter and decide upon it."

## To Form Wheat Pool

Australian Growers Ready To Take Ballot On Question

Sydney, Australia.—Following a conference with representatives of the wheat growers on the question of the Australian wheat industry, the cabinet accepted the recommendations for a ballot among wheat growers on the question of establishing an Australian wheat pool. The conference was in favor of a minimum price of three shillings and six pence a bushel (approximately \$84 cents), for the first advance from the pool to growers.

It is understood banks are willing to guarantee a certain amount if the pool is formed. The government's share in responsibility for such a guarantee is to be discussed later.

## Ottawa Not Informed

No Communication Yet Received Regarding Imperial Economic Conference

Ottawa, Ont.—The Dominion government has not yet received a communication from the government of Great Britain asking whether or not it will be possible to hold an Imperial economic conference. This was stated at the Department of External Affairs when the attention of the department was drawn to the statement of Right Hon. Philip Snowden, in the British Parliament, that such communications were being sent to the various British Dominions.

**No Manoeuvres**  
London, England.—No manoeuvres or inter-brigade operations will be carried out by the British Army on the Rhine this year. Right Hon. Tom Shaw, Secretary for War, made this announcement in the House of Commons. "The government will not willingly cause either inconvenience or annoyance to the civilian population here," he said.

**Will Exclude Trotsky**  
London, England.—The Daily Express states that the British Cabinet has reached a formal decision to refuse Leon Trotsky entrance to Great Britain. The exiled Soviet chieftain made application for a visa soon after the Labor victory was reported at the polls.

W. N. U. 1784

## American Boat Forfeited

Vessel Will Be Put Up For Sale By Order of Admiralty Court

Victoria.—The American salmon trolling boat number 557-G.A. was condemned, and declared forfeited to His Majesty by Hon. Mr. Justice Archer Martin, in the Admiralty Court here. The vessel will be put up for sale by Herbert Goggin, Admiralty Court Marshal.

The number 357-G.A. was seized May 18, off Pachena Point on the west coast of Vancouver Island by the Canadian Government Fisheries Protection cruiser, Givenchy, and was charged with illegal fishing in British Columbia waters.

H. A. MacLean, K.C., counsel for the owners of the tug 257-G.A., who withdrew from the court proceedings against the boat made a re-appearance in Admiralty Court and entered a consent on behalf of the owners of the vessel to an order for its condemnation.

In the action of the Crown versus the Jeannette, Captain Olaf Hansen, master of the American vessel which was seized by the Canadian Government Fisheries Protection cruiser, Malaspina, on May 6, last, in Goose Harbor, about 100 miles north of Alert Bay, told the court that engine trouble experienced, May 4, had caused him to seek anchorage in Goose Harbor the following day to make temporary repairs to the ship's engines.

## Officials Find Drugs In Envoy's Boxes

French Customs Examiner Discovers Cases Contained Heroin and Cocaine

Paris.—French customs officers believe they have uncovered a flagrant violation of the diplomatic immunity to cloak wholesale importation of heroin and cocaine into France. An investigation has been ordered.

The customs examiner's curiosity was aroused by the appearance of four packing-cases addressed to Sir Ali Ghulam Nasr Khan, the Afghan minister in Paris, who has just been appointed ambassador to Moscow.

As the cases were being placed on a wagon officials noticed a white powder escaping through a crack. They took a sample, which proved to be heroin. The cases were all opened and found to contain heroin and cocaine to the value of \$3,260.

## Introduced To Prince Under Fictitious Title

Woman Gate Crash At Mansion House Banquet Had To Leave

London, England.—It was revealed that a woman gate crasher was presented to the Prince of Wales at a banquet given at the Mansion House in honor of Sir Abe and Lady Bailey.

A pretty young woman of about 28 years arrived at the Mansion House and had herself announced under a fictitious English title. She was introduced to the Prince, who shook hands with her and also the guests of honor of the evening.

All might have gone well but the fact that only four women had been officially listed, proved her undoing. She was requested to leave. The identity of the uninvited guest is unknown.

## Japanese Aviator Killed

Started From Los Angeles Third, On Trip Around World

Salt Lake City, Utah.—The body of Masashi Goto, 22-year-old Japanese aviator, of Los Angeles, and the wreckage of his aeroplane in which he had started on a projected trip around the world, was found in a canyon southeast of here. Backed by funds raised by Japanese newspapers of the Pacific Coast, Goto had set out July 3, from Los Angeles and had flown to Salt Lake City. The next morning he left the airport here in his small plane and was never seen alive again.

## Unemployed In Britain

London, England.—The official registration of unemployed numbered 1,142,400 here on July 1, it was made known recently. This number is 24,983 above the mark of the previous week and 75,780 below the figure for the same period last year.

## Record For Panama Canal

Washington, D.C.—The cargo tonnage carried through Panama Canal from the Atlantic to the Pacific in May set a new record for all time of 920,360 long tons. The heaviest cargo-bound tonnage in any previous month — 875,641 — was in October, 1928.

## GRAIN GROWERS WITHDRAW FROM CO-OP. UNION

Winnipeg.—One of the largest produce marketing corporations in western Canada has indicated definitely that it would withdraw its affiliation from the Co-operative Union of Canada, at the congress of that body here when Hon. T. A. Crerar, president of the United Grain Growers, Limited, Winnipeg, replied to charges levelled against the United Grain Growers by delegates from Saskatchewan, that the company "no longer retained its co-operative spirit among the farmers of the western provinces."

A resolution presented by H. W. Ketcheson, Davidson, Sask., chairman of the Resolutions Committee, asking the resignation of the United Grain Growers, Limited, received the support of several delegates before Hon. Mr. Crerar announced the intention of serving notice of his company's withdrawal to the Co-operative Union.

In speaking of the statement that the United Grain Growers had forsaken the co-operative method of doing business, Mr. Crerar strongly denied that the company had ever swerved from its original plan to work for the benefit of the western farmer.

"Our business details have not changed in any detail since 1906 when we started business," Mr. Crerar stated. "The company has always felt a strong co-operative spirit, still does and always will."

The annual congress was denied the privilege of voting on the resolution to ask for the resignation of the United Grain Growers when Mr. Crerar made his declaration that the firm would withdraw. J. G. Mohl, Edenwald, Sask., while admitting the Grain Growers had done great pioneer work in the cooperative methods throughout Western Canada, was of the opinion that no longer could they term themselves a co-operative concern.

In some districts of Saskatchewan, he said, the United Grain Growers is in direct opposition to local co-operative societies.

The only point on which the congress was concerned, said Mr. Ketcheson, in supporting his resolution, was whether the United Grain Growers could be rated a co-operative organization at present. He thought not.

"The people of the west who trade with the U.G.C. are not collecting profits, which, by their trade, they make for the company," he declared. "Huge money reserves have been built up but this mass of money is for the shareholders and the shareholders only, not the farmers," he added.

## Railway Conductors Given Privilege

Ottawa.—The right of the Order of Railway Conductors to contract separately with the Canadian Pacific Railway, western lines, for an increase in wage rate, apart from the Brotherhood of Railway Trainmen, was upheld by a report of the Board of Conciliation emanated by Hon. Peter Neenan, Minister of Labor, to enquire into this matter.

## Talkies On Atlantic Liners

London, England.—Apparatus for talking pictures is being installed on the Trans-Atlantic liner "Majestic." It was announced here. The "Levinthal" will follow suit the near future, and all the other principal liners will be similarly equipped. It was learned.

SPEAKER OF BRITISH HOUSE OF COMMONS

Ask For Drastic Punishment

Officials Demand Trial Of Vice-Consul's Wife Under Chinese Law

San Francisco.—A demand that Mrs. Ying Kao, wife of the Chinese vice-consul in San Francisco, be tried under Chinese law in China and put to death if convicted for her alleged part in bringing a large consignment of opium to the country, was made here by the executive committee of the Kuomintang of America.

It was explained that the Nationalist government had enacted stringent laws against trafficking in opium in China and that such laws provided the death penalty in case of their violation by persons connected with the government.

Yink Kao, upon the advice of friends, terminated his connection with the consulate. Neither Mrs. Kao nor her husband have been placed under arrest.

## Cowboy Loses Right Eye

But Finished Ride For Prize At Calgary Stampede

Calgary.—An outstanding feat of human endurance was performed at the stampede here when Lee Farries, of De Winton, Alta., known far and wide as the "Canada Kid," continued to ride a Brahman steer after his right eye had been pulled out by the beast's horns. Farries finished his ride to take the prize money for the day for this event although he suffered his injury early in the test. He was taken to hospital after the event and the remains of his eye were removed. His condition is serious but he is expected to make recovery. Last year the Canada Kid was the champion all-round cowboy.

## HIGH GRADE WHEAT IS STILL BOAST OF CANADA

Fort William, Ont.—Wheat was still the boast of Canada and never was there a time when it had been chased off the high seas, declared Dean Rutherford, member of the Saskatchewan Royal Grain Commission, at a session of the commission.

Dean Rutherford was replying to an editorial which appeared in a local paper and which criticized the quality of Canadian wheat.

Canadian wheat has a quality of its own, he declared.

"Even our number five wheat was quoted at equal and a little better than other export wheat from other countries," he stated.

While Britain will buy American wheat when it is cheaper, Britain always wants Canadian wheat. Dean Rutherford continued. A report issued recently by the United States government quoted the price of the best exportable Argentine wheat at 16 cents less than Canadian No. 3 Northern, and the best United States export wheat at 14 cents under the same grade.

The commissioner said that lack of rain in the fall of 1926 and 1927 had damaged the crop. The same condition prevailed this year. The farmer cannot be blamed for this, he stated.

"Our wheat holds its place in the markets of the world with any wheat in any country of the world," Dean Rutherford concluded.

A representative of the local newspaper whose editorial was under discussion declared that it could not be denied that Manitoba No. 1 hard wheat on which the reputation of western Canadian wheat was based had vanished from the market. In no place in the west was No. 1 hard raised today, he declared. He drew attention to the report of the seed branch on the seed sown by the western farmers.

This report showed that in a large number of cases seed taken from the hopper of the drills showed that the farmer was actually sowing fifty thousand weed seeds per acre. The condition of western fields in some sections were such that it was impossible to say whether a stocked field contained stocks of grain or weeds. He claimed that these conditions were under the control of the farmer.

For these reasons, he believed there was justification for most of the statements in the editorial in question. It was possible that No. 3 wheat was all that was claimed but the farmer no longer had even No. 3 wheat.

The commission brought its session at the head of the lakes to a close with today's meeting. The commissioners departed by lake steamer to continue their investigations at the lower lake ports and the Atlantic seaboard ports.

## MAY REFUSE CLEARANCES TO LIQUOR BOATS

Ottawa.—The impression is growing here that the Dominion government may modify its policy with respect to granting liquor clearances to the United States. In fact, it would come as no great surprise to some observers if the cabinet went all the way and complied with the request of the United States to refuse altogether liquor clearances to that country.

Whether these forecasts are correct or not, there can be no doubt that the recent developments throughout the country along the Detroit river have caused violent repercussions.

During the last session of Parliament there was scarcely a sitting from various religious and temperance bodies asking that clearances be refused. These formal protestations were mild as compared with the telegrams and letters which are pouring in on the ministers of the Crown these days.

The telegrams and telegrams are coming in from every province and while they are not being made public it has become known that many of them do not mince words in expressing opinions of the writers about the present policy of permitting the clearance of liquor to the United States in contravention to the dry laws of that nation. The government is accused of facilitating the harboring of armed thugs who attack officers of the law of a friendly country.

Canada was no more justified, one prominent Canadian is reported to have telegraphed the prime minister, in the action it was taking than was the United States when it permitted the Fenian raids. The government is accused of fearing the liquor interests. In fact the accusations hurled at the government for not stopping clearances are said to take in a tremendous range.

The prominence of many of the writers of these communications gives ground for speculation as to what the reaction of the ministry will be to them. There are some in their protests will not be satisfied with the formal reply that their communications would be submitted to the government.

No doubt much will depend on the tidings brought back by the ministers of the Crown now spread out over Canada. They will likely know when they return whether these letters are backed by any considerable public opinion. Of course it is a matter for the cabinet to decide, not any one minister. Most of the wrath of these epistles burst against the Minister of National Revenue, but he simply administers the policy decided on by the government.

Meanwhile there is a great deal of thought being given as to just what would happen if clearances were refused.

## Pensions In Russia

Workmen To Benefit Under Soviet Old Age Pension System

Moscow.—Workmen who have reached the age of 60 and worked at least 25 years are entitled to receive half their present wages until death, under the provisions of the old age pension system, enacted by the Soviet Government. In dangerous occupations, the age limit is 50 years. Women of 55 who have worked 20 years are granted the same benefits.

**Cutting Zinc Production**  
Brussels, Belgium.—Zinc producers from the United Kingdom, Germany, Silesia, France, Belgium, Canada and Mexico, at Ostend, issued a statement saying they had decided to reduce production of zinc by 10 per cent., instead of 5 per cent., to the end of the present year. The rate of production in 1930 will be decided at a later date.

**Recovery From Operation**  
Ottawa.—Hon. C. A. Dunning, Minister of Railways and Canals, was removed from the Civic Hospital to his residence on Range Road. Mr. Dunning was operated on six weeks ago for appendicitis and although his progress has been satisfactory it will be some considerable time before he is entirely recovered.

London spends \$23,000,000 on its water supply, \$39,000,000 on its police and \$61,000,000 on education. Great Britain exports more leather footwear than any other country.

## NOTES AND COMMENTS

Dry weather throughout the greater part of the western provinces has resulted in a partial crop failure, which in turn has had the effect of sending the price of wheat up to a new high level. Undoubtedly it will have a curtailing effect on business generally throughout the west, but not to the same extent that a similar condition would have caused in earlier years of the west's development. The prairie provinces, though essentially wheat producing areas, are becoming more diversified and industry is taking a more prominent place in its development, so that a partial crop failure will not have as discouraging effect as many imagine. Crop failures are bound to recur at intervals, and is one of the contingencies that must always be taken into consideration in an extensive grain country such as western Canada.

The Fish and Game Association suggests that cats should be licensed. The suggestion is good. Dogs are licensed, so why not cats? Cats are very destructive of bird life, they devour home pets equally as readily as birds flitting around the trees. They make the night hideous with their howling, they carry disease germs, and as for catching mice, most home cats are too well fed to trouble very much about hunting mice. A can of rat poison will do far more than a dozen cats to exterminate mice. People who try and encourage birds to remain around a place find that cats are the worst enemies. The birds are far more preferable, with their cheerfulness and interesting ways, than prowling cats whose chief aim is to destroy the birds which bring happiness. Cities and towns might reap a nice revenue from licensing cats, and it would serve to put a lot of cats out of the way which are nothing more than a nuisance.

By showing interest in your daily work, by putting a little fresh enthusiasm into it, not only acts as a tonic to yourself, but inspires enthusiasm and the interest of others. Make each day count and do your work well, and you will not have to worry very much about the future. The present is after all the time that really counts in accomplishment.

Airways over the Rockies will in a comparatively short time be charted and regular service will be maintained. The local board of trade will endeavor to find if an emergency landing field can be laid out west of Coleman, which has been charted by the Forestry patrol service for emergency use by the plane from High River. Cities and towns which provide facilities for air travel indicate that they are possessed of vision, for air travel is increasing very rapidly.

You'll find it true—the Board of Trade is an organization which does things for the business community which business men, as individuals, cannot do for themselves.

The hospital board is endeavoring to secure quarters apart from the hospital for a nurses home. They are to be commended in their efforts, for this would prove a boon to the nursing staff and would also permit of additional space being used for hospital purposes in the existing building. They endeavored to purchase the building next to the hospital but were not successful. This will not deter them in their efforts to provide improved accommodation for their nursing staff.

Many inquiries have been made at The Journal office during the week as to when a start on oiling a portion of the streets will be made. The works committee of the council can best answer this question.

teach a lady to sing. He could not get her to sing to the pitch of the piano, and in exasperation exclaimed—"First you sing above the keys, then I try to sing on the black keys, but always you sing in the cracks!"

Saturday and Monday are Coleman Carnival days.

### Local News

William Lonsbury was up from Lethbridge for the week-end to visit his parents.

Phyllis Shone is visiting relatives and friends at Carmangay, and will spend part of her holidays with Lethbridge friends.

Mr. and Mrs. Whitehead and daughter Adela, are leaving this month for a month's holiday at Toronto and Sarnia, Ont.

Mr. and Mrs. A. Beveridge and Betty and Mrs. W. Milly and Billy left on Friday morning for a few weeks visit to Vancouver and Victoria.

Friday, July 26, is the date of the annual picnic of miners and their families from Lethbridge. They will come to Coleman by a special train.

Mr. and Mrs. Rippon, Mr. and Mrs. McBurney, and Miss Hilda Clifford took a party of young people out to Lee Lake yesterday afternoon where a very enjoyable afternoon was spent, the water being sufficiently warm to permit of enjoying themselves in swimming.

### Male Doctors Beware!

As the big Convander Alumnae neared Canada this summer with the main body of overseas delegates to the International Congress of 7,000 nurses, held in Great Britain, a newspaper headline upon Miss Vaughan-Wynert, pictured here. She told them that only women doctors are allowed to enter professionally the London Hospital, she is married to the London South England Hospital for Women and Children. A dispute and a later endowment with this provision ended the building of the unique institution harbouring over 100 patients.

### D'Appolonia Awarded Water Line Contract

Further Contract for Pipe Line Replacements and Extensions Valued at Nearly \$5,000

The contract for the 1929 program of Waterworks Construction has been let to J. S. D'Appolonia for the sum of \$4716.50.

This entails the laying of 1300 linear ft. of 8 in. cast iron mains to complete the main intake line to the dam, and 1000 linear ft. of 4 in. cast iron mains on Victoria Avenue and Third St. In addition to this there will be a further 300 linear ft. of 4 in. mains laid on Fifth St. on receipt of approval from the Town, the Board of Health, and the Board of Public Utilities Commissioners.

Tenders were received from E. Pozzi, Blairmore; G. De Cegio, Coleman, and J. S. D'Appolonia, Coleman, the latter being the lowest.

### Hospital Board Appointed

The following constitute the board of the Coleman Miners Union Hospital:

Representing International miners—Jas. Hadley, G. Dutfield, P. Barachuk, Sam Hadfield.

Representing McGillivray miners—Dave Gillespie, Geo. Dixon, Percy Locke.

J. Hadley, chairman; Percy Locke, secretary.

### Important Industrial Development

The new plant to be built at Trail by the Consolidated Mining & Smelting Co. promises to be a very important addition to the industrial activity of that city. The first unit will cost \$7,000,000. It is for the manufacture of fertilizer and rock deposits in the vicinity of Crows Nest are being developed and a spur track being put in by the C. P. R. to convey the material to Trail.

Miss Hilda Houghton returned on Sunday from Calgary Stampede after a very active and enjoyable week, making the acquaintance of several of the prize winners and accepting an invitation to the cowboy ball in the Palliser hotel.

**For Baby's Bath**

More than that of any other member of the family, baby's tender, delicate skin needs the greatest care and attention. The soft soothing oils in Baby's Own Soap make it specially suitable for babies, and its clinging fragrance reminds one of the roses of France which help to inspire it.

"It best for you and Baby too!"

**Men's Dress Of The Future**

**White Costumes Are Described That May Be Worn a Hundred Years Hence**

Somewhat fantastic is the prediction of a New York clothier regarding the character of the dress for men one hundred years from now. He says legs will have gone from the ankles to the knee and that wide shorts will take the place of trousers for every-day business wear. Coats will disappear and be replaced by a combination jacket and shirt, open at the neck like a polo shirt. Bright sandals will send shoes into the discard.

The only explanation of this nightmare is that mere men must be getting jealous of the sensible manner in which women are dressing in this day and generation. But, as a matter of fact, anything can happen in a hundred years. What most of us forget is that styles for men are just as likely to change as anything else. In the earlier days our forefathers dressed in a fashion which, if worn on the streets of Philadelphia today, would attract universal attention. Wigs with pigtail, silk and satin knee breeches, gay stockings and pointed buckled shoes were always in order for the well-dressed man.

It would not be so revolutionary if we were to go back to the dress, as well as to the principles, of the men of 1776. —Philadelphia Inquirer.

**Rubber From Weeds**

**Edison Experimented With Many Varieties Before He Was Successful**

Mr. Thomas A. Edison has discovered a substitute for rubber. He long ago found that there could be no substitute for the rubber tree as the source of rubber, but he has discovered a weed—after experimenting with 15,000 varieties—which will produce a latex fluid from which a workable substitute for rubber can be extracted. The weed can be mowed like wheat, it was asserted by Mr. Edison's representative, and does not require planting anew every year, because it is a perennial. Mr. Edison has of late been engaged in experiments with the weed, finding a substance which will separate the rubber substance from other components of the fluid, but he has so far not been successful in this direction.

Winnipeg is active in the experimentation of alcoholic beverages from Canada to the United States, through the port of Windsor last month as compared with June, 1928, was announced by the U.S. treasury, which figures a decrease of 357,136 gallons.

**Honor Foundation Of Rhodes Scholarships**

**Great Gathering Of Scholars Celebrated Twenty-Fifth Anniversary**

A great gathering of scholars from the British Empire, the United States and Germany, recently assembled in the new Rhodes house to celebrate the twenty-fifth anniversary of the famous Rhodes scholarships at Oxford University.

The Prince of Wales, former Premier Stanley Baldwin and many prominent persons were present at a dinner in honor of the occasion.

Mr. Baldwin, who is one of the Rhodes trustees, made the important announcement that for the first time since Germans were excluded from the scholarships during the Great War, German scholars would again be admitted as Rhodes scholars. He said the trustees, subject to the consent of the university authorities, would establish two German scholarships annually, tenable for two years only.

**Cannot Be Exported**

Many of the finest varieties of bananas cannot be exported on account of their tender skin, among them being the "Lady finger" banana of the Canary Island, which is only about three inches long.

The Phoenicians were the greatest navigators of their time, their ships carrying the treasures to all the Mediterranean countries and as far as the British Isles, where they came in search of tin.

**Headache**

Bathe the head with Minard's in water. Also heat and inhale Minard's.

W. N. U. 1794

**South Africa's Problem**

**White Man Incapable of Skilled Work Is Classed As Kaffir**

By the Colour Bar Act, it is an offence for a native to undertake skilled work. Unskilled jobs are, therefore, regarded as "Kaffirs' work" and no white man would dream of undertaking them. The result is that, if the European is incapable of skilled work, he cannot enter the ranks and becomes a "poor white," a social parasite, a loafer hanging on to the skirts of white society, a decadent slowly sinking lower into the morass of degradation, a feeble, hopeless figure. One white man in every twelve in South Africa is in this category today! It is the greatest social problem with which the country has to deal. This is the price we are paying for the introduction of slaves two centuries ago, and for the malignant efforts of the slave-owners' attitude towards the slaves. So long as manual labour is regarded as degrading and as "Kaffirs' work" with which no white man must soil his hands, just so long will industrial prosperity delay its coming.

**RED HOT JULY DAYS  
HARD ON THE BABY**

**JULY—the month of oppressive heat. Red hot July days and sultry nights are extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer.**

**The months of August and September are the rainy season, when a force of lawyers is trying to get him out. Stevens refused to repair the church at St. Edmund, standing on the property he recently bought. Under life terms of the old deed he was said to be bound to repair the church, but he maintained this clause had lapsed through disuse.**

**The ecclesiastical court therupon imprisoned Stevens under a law passed during the reign of William IV., giving the church such power in civil cases relating to a church or church property. His relatives repaired the church immediately. But Stevens cannot get out of prison until the church court meets and considers a petition for his release.**

**Recipes For This Week**

(By Betty Barclay)

**LEMON CRUMB PUDDING**

2 cups milk.  
2 cups bread crumbs.  
1/2 teaspoon salt.  
1/2 cup sugar.  
1 egg.  
Grated rind 1 lemon.  
3 tablespoons lemon juice.  
1 tablespoon melted butter.

Pour the milk over fine dry bread crumbs; add salt and sugar, well-beaten egg, grated lemon rind, lemon juice and melted butter. Pour into baking dish and bake in a slow oven (300 degrees) 40 minutes. Serve with creamy pudding sauce made as follows:

1 egg.  
3/4 cup powdered sugar.  
1 cup cream.  
2 tablespoons orange juice.  
1 tablespoon lemon juice.

Beat egg until light; beat in powdered sugar. Add cream whipped until stiff and fruit juices. Serve ice cold.

**RICE AND FISH LOAF**

1 package lemon flavored gelatin.  
1 cup boiling water.  
1/2 cup cold water.  
1/2 cup chili sauce.  
1/2 teaspoon salt.  
1 cup salmon, tuna, or other cooked fish.  
2 cups cold cooked rice.  
1 green pepper or 6 stuffed olives, chopped.

1 small onion, finely chopped.

Dissolve gelatin in boiling water. Add cold water, chili sauce, and salt. Chill. When slightly thickened, fold in remaining ingredients. Turn into loaf pan. Chill until firm. Unmold. Slice and serve with a tart sauce. Serves 8.

**Cotton Still Survives**

In some of the small villages of Great Britain it is said, the ministers still adhere to the old custom of reading each verse of the hymn before the congregation sing it. This custom is a survival from the time when the majority of the congregation could not read. It is strange that it should still survive after so many years of compulsory education.

The island of Puka, in the South Seas, is 800 miles from its nearest neighbor. Its inhabitants at present consist of 300 natives and one white man.

At Queen Victoria's birth there were five persons between her and the throne.

Evidences of the existence of the harp in prehistoric times have been found.

JULY 21

**THE SOURCE OF THE RIVER, versus 2.**

**The prophet Ezekiel in describing his great vision. He has finished his view of the temple, its courts and its worship, as he sees it to be in the future. Jerusalem will now support nature's guide, bringing him to the door of the temple. There he beholds a miracle. From underneath the threshold waters issue.**

**The river issues from the sanctuary: from every church today influences should stream that quicken and bless the life of all around. The river issues from the direct course to the desert and the Dead Sea. The Church should carry the water of life to the waste places, the dreary, barren, thirsty places of the world. Is the church to be limited to its own outer and inner courts?**

**The Deepening Of The Stream, verses 3-6. He follows the river with his guide, who measures with a rod the distance to the rock. A quarter of a mile (one thousand cubits) away from the temple, Ezekiel finds the water up to his waist. The water varies in length from eighteen to thirty-one inches. The waters rapidly deepen as they continue their way, and when a half mile is measured, the water reaches the knee—then the shoulder, and it is up to his waist; and at the end of a river, deep for them to ford, a stream to meet them.**

**"Ezekiel's pictures may seem to us, in part, mechanical and fantastic, but if grotesque; but it is not difficult to see a symbolic application to appear in the thing. Ezekiel would be at, or share his hopeful and eager wonder, at the possibilities of the future time when the Church has become the rock, the pillar of the land and in the hearts of the people.**

**"The background of this vision is a sick and hungry world. This is indeed described by the very last words of the description, with the fruit of the beautiful trees upon its banks to be for food, and their leaves for healing. Food for the famished, drink for the thirsty, shelter for the homeless, sounds of men! These things the Church must be able to provide, or she is no**

**church. The trees with their wholesome fruit and health-giving leaves, are nourished by the waters of the river, and the river has its source in the house of God. Everything shall be well with the world if her life cometh. If this is not literally true, it is ideally true. She has food and healing to offer all who look to her. She can bring new life to an infinite variety of ways, and she has an inexhaustible power of adapting herself to the various needs of men. Not once, but twelve times a year, her tree yield her fruit." — J. E. McFadzean.**

**Appreciation Of Spain**

**Officers Of British Aircraft Carrier "Eagle" Decorated By Spanish Premier**

Premier De Rivera, of Spain, summoned the officers of British aircraft carrier "Eagle," to be decorated with the Spanish Cross of Honor by saving Commander Ramon Franco and his three companions from the mid-Atlantic. The ceremony took place at Madrid.

It was Spain's crowning gesture of appreciation for the great service the Britishers had done to the Spanish government in rescuing the sailors. As soon as the full list of the members of the crew of the "Eagle" is received from the British admiralty the sailors and marines of the rescue ship also will be awarded medals.

The "Eagle" itself will be decorated with the serial medal. This ceremony will take place either at Algeciras or Gibraltar, as soon as the British admiralty finds it convenient to send the ship there for that purpose.

One of the impressive things of modern life is to stand and watch a single policeman dam the flow of traffic. And hear the pedestrian.

**WINDOLITE**

MADE IN ENGLAND

**The Improved Glass Substitute**

**COMES WITH A MESSAGE OF HEALTH**

**THIS sun is the all-powerful life producer, Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.**

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital rays. WINDOLITE, however, is different. WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective ray filter, for glass, that it greatly admits the Ultra-Violet rays, and that it has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to receive ultraviolet light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, giving a new stimulus to plant life. In addition, the egg-laying capacity and fertility of chickens has been improved the health of cattle and is now being used in domestic and household requirements.

**WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, pony houses, brooder houses, all sunrooms. It is economical, unbreakable, flexible and is easy to cut and shape. It is supplied in rolls, 12 feet wide, with an edge scissor and is easy to fit. WINDOLITE is supplied in rolls, 12 feet wide, with an edge scissor and is easy to fit. WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness weighs about 120 to 130 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.**

**Price \$1.50 Per Square Yard, f.o.b., Toronto.**

**Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE bask in 100% Sunlight  
Book for booklet "WINDOLITE".**

## The Singing Fool

By HUBERT DAIL

Copyright, 1928, Warner Bros.

### SYNOPSIS

Marcus, the famous Broadway producer, heads a party of four that visits Blacke Joe's night club in downtown New York. Al Stone, Blacke's chief comedian and singing waiter, takes the order for beer. Grace, the cigarette girl, is in love with Al, but he doesn't know it. As he returns with the beer he encounters Molly, the ballad singer, whom he loves secretly. He begs her to sing a song he has just written. Molly is disdainful toward him. Blacke Joe tells Molly that the great Marcus is outside, and she makes a hasty retreat. Intrigued, when Al rushes back to her dressing room she refuses even to read his note. He sees it on the floor under her feet!

### CHAPTER IV.

Al could scarcely believe his eyes—his song, the heart-throb ballad he had poured forth from the depths of his soul, lying on the floor unnoticed, under Molly's sharp and careless heel!

He raised his gaze as he felt Molly about to sweep by him. Scarcely knowing what he was doing, he seized the angry girl in his arms, pulling her close to him, staring beseethingly into her eyes. She tried to pull away, but his grip of steel held her.

"Molly!" he pleaded. "Didn't you even read it?"

Again Molly tried to escape, succumbing this time. If she had been angry before she was blazing now.

"How dare you try to stop me? I told you I had important business out in front tonight! You bother some idiot you've almost ruined my make-up!"

She returned to her dressing table and began dusting her arms and shoulders with powder. On the lapels and sleeves of Al's coat were the heavy white marks of the powder. But he did not notice them, nor did he hear her words. Slowly, he stooped over, like a man in a dream, picking up his song. He saw the sharp print of Molly's steel-rimmed heel across the music. It had almost cut through the paper, and he stared at it for a long moment. It was as if that little heel had cut into his heart.

Again she headed for the door, reaching the corridor. Then she realized that Al was following her and she turned about, determined to settle him once and for all. He

**WHEN** a cold or exposure affects your body, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from rheumatism, fits, rheumatism, or lameness. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

**ASPRIN**  
Aspirin is a trademark registered in Canada

W. N. U. 1764

But at the moment it certainly appeared as if Marcus hadn't the slightest intention of helping Molly. In fact it seemed as if he had forgotten her presence entirely.

Meanwhile, the "singing" waiter, whose love she had flouted, paced the corridor leading to Molly's dressing room. For a moment he stopped and stared at the crumpled song-sheaf he held in his hand. Then he faced the picture of dejection. Outside were the syncopated rhythms of the jazz band and the staccato beats of a pair of tap dancers in action, but the only sound that echoed in Al's ears came from Molly's parting words. They seemed to reverberate through his whole body, like the dirge to his hopes and love. At last he realized completely that his chance of winning Molly was an utterly lost cause.

Dull despair crept over him and the sheet of music slipped from his unresisting hands. Mechanically, and without knowing what he was doing, he stooped and picked it up. Then the title of the song across the top caught his eye—"Always."

"Always"—what a fool he was to write a song like that, fondly believing it would touch her heart and that she would share his enthusiasm for it! Swiftly he crumpled the song-sheaf in his fist, as if to wipe the memory of it from his mind.

In the silence, from a corner of the room, Grace, the cigarette girl, who was watching him sympathetically and intently. She had seen him talking to Molly. Vaguely she sensed the cause of his despair.

But Grace, loving him generously, thought not of herself nor of Molly, but only of some way to help Al in this time of trouble. Al, the gay, wise-cracking, singing waiter, had lost his pep and energy; Al, of the kindly, homely mouth, of the deep, warm, glowing brown eyes; Al, who had been her best friend at Blacke Joe's—was suffering. She knew he didn't love her and considered her only a sweet child, but that didn't matter.

Giving a quick glance around, Grace stepped into the corridor and approached him on tiptoe. "Al!" she said, a soft, sympathetic voice at his shoulder. He gave a start, thinking in a mad burst of hope that it might be Molly. Then he looked down into Grace's eyes.

"What's the matter, Al?"  
(To be continued.)

### The Value Of Power

Lower the Price and It Becomes More Valuable

Paradoxical as it may seem the measure of the value of power is its cheapness. Low priced power diminishes the cost of production of manufactured goods both for home consumption and export and in some industries, such as pulp and paper, electro-chemical, mining, smelting, etc., it is the controlling factor in location. A conspicuous example is the erection of the world's largest aluminum works at the great water power of the Saguenay river in Quebec.

**Superstitious About the Moon**  
In the Middle East exposure to the rays of the moon is said to cause nightmare as well as headaches, and in the Far East a morning "thick head" is added to these symptoms. In Burma there is a belief that when the insane suffer from mental storms, these correspond to the phases of the moon.

### A New Feature

"Solarium cars" with the rear portion ended in "vita glass" admitting seven-five per cent of the ultraviolet rays of the sun, are a feature of the latest passenger carrying equipment of the Canadian National Railways.

### Cramps Diarrhoea Pains in Stomach

Mr. Roy Lightfoot, Milford, Ont., writes: "I became very ill; lost my appetite, had cramps, diarrhoea, and severe pains in my stomach. I purchased a bottle of Dr. Fowler's Extract of Wild Strawberry and before I had taken half of it I was completely relieved, and have had no symptoms of the trouble since."

"I cannot praise Dr. Fowler's Extract too highly, and will never be without a bottle of it in the house."

"It is pleasant to take and acts very quickly."

"My brother had the same experience with Dr. Fowler's Extract."

"Dr. Fowler's has been on the market for the past 84 years; you don't expect when you buy it,

All our New Hats marked away down. Come early, it's going to be a record day. Money talks at

**Laslett's, Coleman**  
WHERE THEY ALL GO

Sale Continues till Saturday, August 3rd

An electric washing machine at \$98 in the bargain! Pattison's hardware is offering, and you should call at the store and see what splendid value it is.

The dance recently held in the Opera house, under the auspices of the Young Ladies' Society, netted \$24.00 after paying expenses, states Anne Michalsky, who was head of the committee.

Glorious summer weather during the past week has induced many to seek the cooling streams of the mountains, and doubtless the favorite fishing streams have had their quota of enthusiasts.

A party including John Houghton and son Ernie, Hilda, and Mr and Mrs. Gwilt, visitors from New York, spent a delightful day at the North Fork on Tuesday, when Mr Gwilt had the thrill of landing a 2½ lb. trout.

Robert Gray of Blairmore recently returned from a trip to Ontario and Quebec, having attended a convention of the Commercial Travelers Association. He greatly enjoyed a trip down the St Lawrence by one of the fine ships of the Canada Steamship Lines.

Mr. and Mrs. Flynn and family are spending a holiday at the Emerson cottage at Crows Nest Lake. Mr. Flynn is also spending part of his holidays on a fishing trip to the North Fork, and will doubtless have some stories to tell on his return.

Miss Hibbert recently arrived from Banff sanatorium as supervisor of the Miner's hospital Miss Goodwin of Bellevue and Miss Archer of Blairmore are on the nursing staff. Percy Locke was recently appointed secretary of the hospital board.

J. Allan Park, a nephew of Jas. M. Allan of Coleman Cash Grocery, arrived yesterday from Aberdeen, Scotland, making the trip from Glasgow in the fast time of eleven days. He came by the S.S. Antonia of the Anchor-Donaldson line.

**ST. ALBAN'S CHURCH**  
Evanson, Sunday, July 21, 7 p.m.  
The W. A. will hold a pantry sale in Laslett's store from 3 to 6 p.m. on Sat., July 20, at which some very nice home cooking in cakes and pastry will be on sale.

Mrs Wilson and daughter Violet spent a week at Pincher Creek visiting old friends.

Supt J. McLeod took his family to their summer cottage at St. Albans Beach, 76 miles west of Edmonton, last Saturday, where they will remain for a month. Mr. McLeod returned yesterday, and will go up later for a holiday.

A most enjoyable picnic was held by St. Albans' Sunday school at Crows Nest Lake yesterday afternoon, many availing themselves of the opportunity to enjoy themselves. Ice cream, peanuts, candies and cakes gave delight to the children, and thanks are due to all who assisted in taking the children out there and helping in other ways to make it a success.

### NOTICE TO CREDITORS AND CLAIMANTS

In the estate of THOMAS JOSEPH NICOLAS, late of Coleman, Clerk, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named Thomas Joseph Nicholas who died on the 26th day of May, 1929, are required to file with Charles Nicholas, Esq., Coleman, by the 31st day of August, A.D. 1929, a full statement duly verified of their claims and of any securities held by them and that after that date the administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to his knowledge.

Dated this 8th day of July, A.D. 1929.

R. F. BARNES,  
Barrister, etc., Coleman,  
Solicitor for the Administrator.

Mrs. Borden and family are enjoying the beauties of "The Gap" where they are camping for some time. Dr. Borden took them out on Friday last to establish camp, and spent the week end there. Mr. H. C. Langfeldt of Calgary was their guest for a day or two.

Mr. A. C. Fraser of Sydney, N. S., is spending a few weeks visiting his sister, Mrs. Andrew McLeod, and last week attended the Stampede. Mr. Fraser is a professor of music, and for many years was organist in the Anglican church in Sydney.

Wielders of the paint brush are keeping up the good work. The cottage schools have been commenced work on; Ferguson's funeral home, opposite the hospital, is being given a trimming up, and a number of householders are painting their houses. In the business section an improvement will be made by the stuccoing of the front of McBurney's drug store and other improvements to the exterior.

For First-Class Work and Quick Delivery, send your HEMSTITCHING to Barton's Music & Sewing Machine Store, Fernie, B.C.
